

**RECTANGULAR-PLATE
TWO-STEM
CHAPLETS**

**SUPPORTI
A PIASTRE
RETTANGOLARI
E 2 GAMBI**

> Chaplets suitable for even very high load pressures thanks to the larger supporting surface of the plates and to the use of two stems, including of large size. The version with **ringed and welded stems** provides utmost load capacity. Available from stock in a broad range of sizes.

> Available in **standard, perforated, ringed and ringed and perforated** versions.

> Available with the following anchoring systems: with **2 nails, self-adhesive**.

> *Supporti adatti a pressioni di carico anche molto elevate, grazie alla maggior superficie di appoggio delle piastrine ed all'utilizzo di due gambi, anche di notevoli dimensioni. La versione a **gambi rullati e saldati** garantisce la massima portata. Disponibili in stock in una vasta gamma di misure.*

> *Disponibili nelle versioni: **normale, forati, rullati, rullati e forati.***

> *Disponibili con i seguenti sistemi di fissaggio: con **2 punte, autoadesivi.***
